The college has seen a boom with a steady growth of more than 2500 students with 185 highly efficient and dedicated faculty members and 75 non-teaching staff to assist them. This college has added value of running more than 30 courses in both UG and PG Programmes and 6 Research Programmes.

About the Department

The department of Mathematics was started in the year 1982. The department is fledged with 12 highly dedicated and committed faculty members. The PG programme was started in the year 2008 and the M.Phil. with 15 students intake was started in the year 2010.

About the Seminar

Number theory is a vast and fascinating field of Mathematics, sometimes called "higher arithmetic," consisting of the study of the properties of whole numbers and has always fascinated amateurs as well as professional mathematicians.

Graph theory uses structures to model pair wise relations in the modern branch of Mathematics. The aim of this seminar is to provide a platform to bring together the experts, researchers and resources persons together for the discussion of the recent developments in graph theory.

With a hope to promote research scope in this field, to understand the hidden concepts, to learn and share the important aspects in these topics, this seminar is being organized, "Come on, let us share and enrich the useful resource".
