

The Spoken Tutorial project

- Self explanatory - uses simple language
- Audio-video - uses multisensory approach
- Small duration - has better retention
- Learner-centered - learn at your own pace
- Learning by doing - learn and practice simultaneously
- Empowerment - learn a new FOSS

Target group

- School students
- Undergraduates / Postgraduates
- Research scholars
- Teachers

Workshops

The Spoken Tutorial Project Team conducts work-shops on CellDesigner and other FOSS using spoken tutorials and gives certificates to those who pass an online test.

CellDesigner™

National Mission on Education through Information and Communication Technology (NMEICT)

www.sakshat.ac.in
An MHRD initiative

<http://spoken-tutorial.org>

Introduction

- CellDesigner is a modeling tool of biochemical networks with graphical user interface.
- It is designed to be Systems Biology Work bench compliant, and support Systems Biology Markup Language format.
- CellDesigner is developed by the Systems Biology Institute (SBI), Tokyo, Japan.
- Latest version is 4.4
- Details about CellDesigner are available at this link <http://www.celldesigner.org/index.html>

Features of CellDesigner

- Biochemical Gene Regulatory Networks Modeling with GUI.
- Visual Representation of Biochemical Semantics.
- Comprehensive Graphical Notation: SBGN Process Diagram.
- Is a Systems Biology Markup Language compliant software.
- Direct integration with SBML ODE Solver and Copasi.
- Smooth linkage to SBWpowered simulation module.
- Database Connections.
- Export image to image files including PDF and SVG format.

System Requirements

The current version of CellDesigner requires Java2 Runtime Environment (JRE1.6.0 or later).

Pathway Databases

- Directly accessible from CellDesigner's database menu:
 - PANTHER Pathway database
 - BioModels.Net
- Other databases using CellDesigner for Pathway building
 - iPAVS
 - NaviCell
 - BioPP

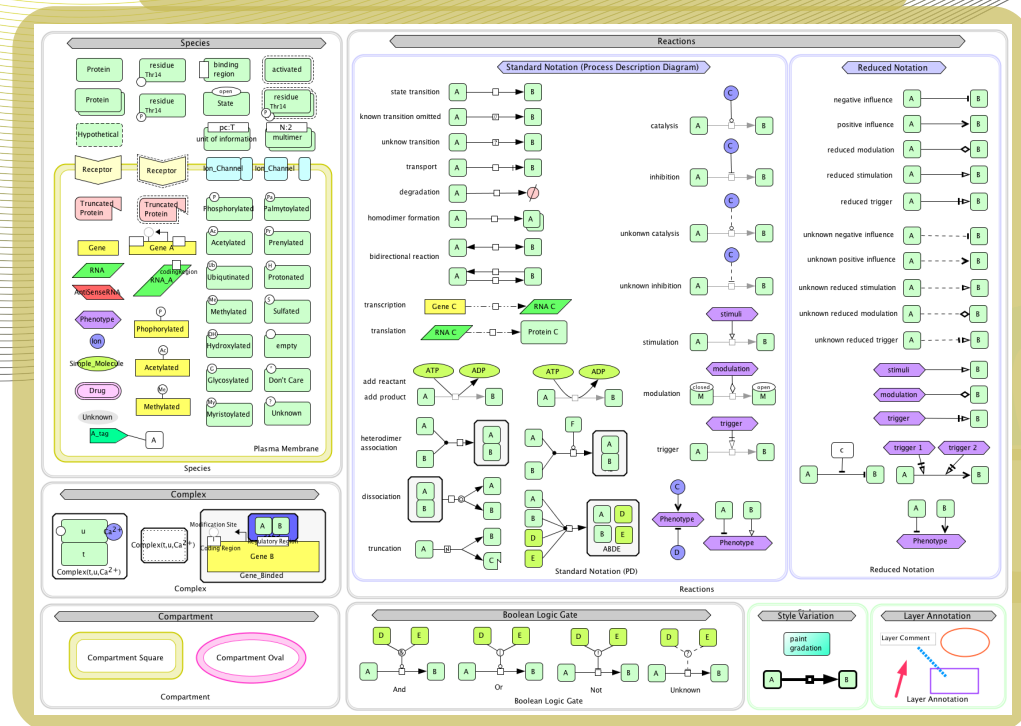

Plugins

- CellDesigner Plugins allow developers to extend the function of CellDesigner.
- CellDesignerTM 4.0 onwards support Plugin functions.

Uses of CellDesigner

- Easy data exchange is possible with other SBML compliant applications.
- SBML is the computer-readable format for representing models of biochemical reaction networks.
- Calling SBML ODE Solver and Copasi directly from CellDesigner via the ControlPanel enables us
 - to specify details of parameters
 - conduct parameter search and
 - in interactive simulation in intuitive manner.
- CellDesigner complies with Systems Biology Workbench, which enables the seamless linkage to SBWpowered simulators.

ABOUT THE INSTITUTE

Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore was established as an aided college by the great patriot and educationist Padma Bhushan Dr.T.S.Avinashilingam under the auspices of the Avinashilingam Education Trust in 1957 with 45 women students. Dr.Rajammal P. Devadas, the Doyen of Home Science, nurtured the institution to what it is today. The saga of excellence and legacy created by the visionaries has been carefully nurtured and carried forward by a team of devoted functionaries. Presently, Dr.T.S.K.Meenakshisundaram, Managing Trustee, Sri Avinashilingam Education Trust, Prof.S.P.Thyagarajan, Chancellor, Dr.Premavathy Vijayan, Vice-Chancellor and Dr.S.Kowsalya, Registrar are carrying forward the transformative vision to place the institution at its zenith. It is now one of the country's largest institutions to impart quality education for women at all levels.

ABOUT THE DEPARTMENT

Food Science and Nutrition includes the components of foods, their chemistry and technologies involved in processing and preservation, food safety and human nutrition for overall health and well being of the community. The department of Food Science and Nutrition has taken up the challenge of ensuring "HEALTH FOR ALL" since its inception and has built its programmes oriented towards excellence and community development to mould the future teachers, nutritionists, administrators, research workers and home makers into nutrition and health conscious citizens. The Department of Food Science and Nutrition strives to sensitize and equip the students with knowledge and state of the art skills to become brand ambassadors to all strata of society and evolve technologies for improving the food nutrition and health scenario of the community. The department offers B.Sc., M.Sc., M.Phil. and Ph.D. in Food Science and Nutrition and PG Diploma in Public Health Nutrition .

UGC STRIDE COMPONENT -1

As a part of the quality mandate, the University Grants Commission (UGC) has introduced STRIDE (Scheme for Trans-disciplinary Research for India's Developing Economy) - a new scheme to promote quality research by faculty and students. STRIDE plans to add new disciplines for research support with a thrust on research capacity building, trans-disciplinary research facilitating India's developing economy. The specific focus of the Scheme is to support high impact research in thrust areas of humanities and human sciences including arts, Indian languages, social, cultural, environmental, economic, political contexts and knowledge systems through networking of experts from institutions and organizations across India. This would promote new knowledge, inculcate innovative and cognitive thinking and improve doctoral research quality.

STRIDE may help create an appropriate research environment for promising graduate, post-graduate and research students to equip them to undertake quality research and attain excellence. It will also promote action-oriented research and high impact research among motivated faculty from diverse disciplines focusing on issues and problems related to local, regional and national levels.

STRIDE will focus on solution - driven efforts by addressing the needs of local/regional communities and national priorities.

OBJECTIVES OF STRIDE COMPONENT -1

- ◆ The main objective of the scheme is to develop research culture and interest among young faculty, scholars and students to pursue careers and undertake the high-quality research in trans-disciplinary areas that augment and expand their research capacity.
- ◆ This scheme is meant for the development of researchers and teams via training through competitive selection, to design research, follow research ethics, write research grant proposals, effectively execute the research, publish and patent research- findings.
