MAC-Eco Green Campus Cell

Functions

- Promote and implement sustainable practices to maintain and enhance the college's environmental health.
- Educate and engage the college community in environmental conservation and sustainability initiatives.
- Foster a culture of environmental responsibility and stewardship among students, faculty and staff.
- Develop and maintain green spaces, such as gardens, trees, and green roofs, to enhance biodiversity and improve campus aesthetics.
- Initiate campus-wide clean-up drives and environmental conservation activities.
- Develop and recommend environmental policies and guidelines for the college, including green procurement and sustainable building practices.
- Ensure compliance with local and national environmental regulations and standards.
- Monitor the campus's environmental performance and track progress toward sustainability goals.
- Prepare and submit regular reports on environmental activities, achievements and areas for improvement to the college administration.
- Encourage active participation from students in environmental projects, leadership roles and decision-making processes.
- Prepare an annual report detailing the Eco Green Campus Cell's activities, achievements, and challenges.
- Submit the report to the college administration for review and approval, and use it to plan future initiatives.
- Maintain accurate records of all environmental initiatives, projects, and expenditures.
- Ensure that records are securely stored and accessible for review and reporting purposes.

Energy and Environment Policy for Muslim Arts College

Muslim Arts College is dedicated to fostering a green campus by promoting eco-friendly practices among students and staff. As part of this commitment, the college actively implements sustainable initiatives that align with its mission of environmental responsibility. Key practices include:

- Planting a substantial number of trees to maintain a clean environment and regulate CO2 emissions.
- Installing rainwater harvesting systems and using wastewater to nourish plants.
- Setting up a biogas plant to convert food waste into biogas, significantly reducing LPG consumption in the campus.
- Engaging all stakeholders in awareness campaigns focused on the importance of effective waste management.
- Collaborating with the Eco Club to eliminate single-use plastics on campus, ensuring a plastic-free environment in classrooms, laboratories, and canteens.
- Promoting alternative energy sources, such as solar power and LED lighting, to minimize energy consumption.
- Conducting regular environmental audits with certified energy managers and auditors to ensure compliance and sustainability.

These efforts reflect Muslim Arts College's ongoing commitment to environmental stewardship and its role in shaping an eco-conscious community.
