## About the Workshop

Research writing skills are not an innate talent, but are developed and sharpened through active and continued engagement in research and writing. The objective of this workshop is to strengthen the skills and knowledge in Research Writing. Writing a scientific research paper is an option for undertaking short period research investigation. A substantive research effort is involved in writing a scientific research paper by a large number of researchers and by industry experts. However, several researchers do not know how to write a scientific research paper with the result that a large number of writings are considered as poor quality

writings. Writing a scientific research paper is an art as well as a sophisticated knowledge based skill. Very few among the academia understand the finer nuances involved in writing a research paper, thesis. The quality of writing is also essential for publishing in high quality journals. The aim of this workshop is to give training to those scholars who are interested in Research Writing. Avoiding Plagiarism and Publication and help the scholars and students to sharpen their writing skills.
